

GAURAV TALELE

Full Stack Engineer

DEAR HIRING MANAGER...

I hope you're doing well.

I am writing to express my strong interest in being the next Full Stack Engineer at your organisation.

As an ambitious professional with experience in **Angular, Typescript, Node JS, C#, Dot Net Core WEB API, MS SQL, Redis, MongoDB, RabbitMQ, Docker, AWS**. I believe that I would make an excellent addition to your team.

I am currently working as a Full Stack Engineer in **Mahindra and Mahindra Ltd** through Neosoft Technologies India Limited where I am responsible for developing a chat bot framework for Qlik Sense Applications as a lead with team of three developers. Consequentially planned outsourcing product developed in house within a couple of months.

I started my career as a Software Developer with **63 Moons Technologies Limited**. I gained a substantial experience in developing new application modules, identifying and fixing bugs as well as coding in Angular, C# Web API, NodeJs, MS SQL. As we followed agile development the team was cross functional hence, got the chance to learn more about large scale deployments using docker and docker compose.

While pursuing an Post Graduate Diploma in Advance Computing i have developed my coding and debugging skills under the guidance of Microsoft's most valuable professionals. This knowledge has enabled me to operate in architecting products from scratch and master multiple software development principles.

I firmly believe that I can be a valuable asset to your team, henceforth attaching the resume. I welcome the opportunity to speak with you about my qualifications, potential career opportunities and the ways that I can contribute to your organisation.

Thank you and I look forward to hearing from you soon.

Regards,
Gaurav Talele.
Full Stack Engineer.
