SUMMARY

A resourceful engineering graduate (Year 2022 passout) who is self-motivated, hardworking individual having good understanding of SDLC process seeking for an opportunity to work in a challenging environment to prove my skills and utilize my knowledge in the growth of the organization. I am skilled in **Java, Spring Boot, REST API and SQL**. Adept at computer systems and web services. I am Looking for an internship / Full Time Employment opportunity that will help me become a skillful professional.

PROJECTS

Hospital Management System

08/2022 - 09/2022 Mumbai

Hospital Management System Including Patient, Medicine, Doctor and their Appointments etc.

- In this project there are 7 modules.
- It is a standard 3-layered architecture like Client, Server and Database.
- We have used Angular as a front-end technology and Spring Boot as a backend technology and PostgreSQL as a database.
- We also used JPA for the persistence layer.
- I have designed and developed Doctor and medicine module.
- It also uses Spring security for login and logout workflow for admin, doctor and receptionist module. As we have designed a role-based access system.
