SUMMARY

A Full Stack Engineer with 3.2 years of experience in Angular, Node JS, C#, Dot Net Core, MS SQL, Redis, MongoDB, RabbitMQ, Docker, AWS, etc. Received Best Performer Of The Year award while working at Neosoft Technologies Ltd.

EXPERIENCE

Full Stack Engineer Neosoft Technologies India Limited (CMM 5).

Client: Mahindra and Mahindra

📅 10/2018 - Ongoing   📍 Mumbai

Designed, architected and wrote the frontend + backend + deployment of our Chat Application and Qlik Sense Chatbot framework using Angular 7 with reusable components.

- Executed technical direction of application architectures in assigned projects
- Demonstrated experience in bringing critical applications from design to production and support.
- Researched and developed face detection and recognition based app for employee attendance using Angular, C# Dot Net Core, and Azure Cognitive Services.
- Developed a whats app bot for vendor stock and invoicing related queries.
- Modernized our legacy deployment workflow from on prem to containers

Software Engineer

63 Moons Technologies India Limited

📅 03/2017 - 10/2018   📍 Mumbai

India's No 1 Stock Exchange Trading Platform Provider

- Herewith I am working for a SMC Global Project. My main responsibility has been to develop reusable angular components
- I have used tech stack including Angular, C#, Web API, MSSQL, IIS.
- Analytics Module was developed in which I am actively playing an important role as I have developed a dashboards for Equity, Commodity, Futures and Options, Currency, and Fundamentals as a single unit. Each dashboard consist of more than 15 widgets.
- Actively involved in developing and architecting of Analytics Engine based on Redis Cache which generates live alert for 72 business rules.
- Developed overall Health Indicator for scrip which gives an overall scrip information with fundamentals in an animated graphical format using dendogram.

SKILLS

Frontend

Angular   React   HTML   CSS   Material

SKILLS

Backend

TypeScript   NodeJS   ExpressJS   DotNet Core   LINQ   MongoDB   MS SQL   Redis   RabbitMQ

Apache Kafka

Deployment

AWS   Cloudformation   Azure   Docker   IIS   Nginx   Docker   Docker Compose   Docker Swarm

EDUCATION

Post Graduate Diploma in Advance Computing
University Of Mumbai
📅 2016 - 2017

Bachelor Of Engineering
University Of Mumbai
📅 2011 - 2015   📍 Mumbai

GPA
3.2 / 4.0

TRAINING / COURSES

Create Web API using Dot Net Core
Udemy Certification Number - UC-BST8BSMZ

Reactive Architecture: Building Scalable Systems
Which institution provided the course?

M201 MongoDB Performance

ACHIEVEMENTS

💎 **Best Performer Of The Year 2019**
From Neosoft technologies Ltd received this award based of overall performance and problem solving skills.

💎 **Gold Medal in Excelencia Outstanding Performance Star of Month (November).**
Integration of Qlik Sense With Node JS API.

💎 **1St Runner up for project of zAnalytics BTS Hacknovate 2018 amongst 48 teams.**
We have developed a real time stock orders analytics using Angular, NodeJS.
